Your freedom to renovate begins where Spider Slim ends.

at/renovate/s

Giacomini Spa - info@giacomini.com

Spider Slim, the system for thin and light radiant floors.

Spider Slim is an innovative system with top-notch performance that lowers the screed and offers unlimited renovation freedom. The result of Giacomini's research, this preformed panel with tridimensional geometry is a compact solution to achieve the best uniformity in thermal energy distribution.

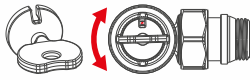

Spider Slim has a 50 mm laying pitch and can be used with self-levelling compounds, reducing the screed height up to 2 cm. A carefree choice for your renovation needs.

MODEL		RS720X200	RS720X205
● MIN H A+B (COATING NOT INCLUDED)	min self-levelling	20	25
	min self-levelling	35	41
	min sand + concrete	40	46
● SCREED MIN H	min self-levelling	20	25
	min self-levelling	35	39
	min sand + concrete	40	40
● PANEL TOTAL H	min	15	21
● INSULATION H	min	-	6

Available with adhesive base or insulation, its height ranges between 15-21mm.

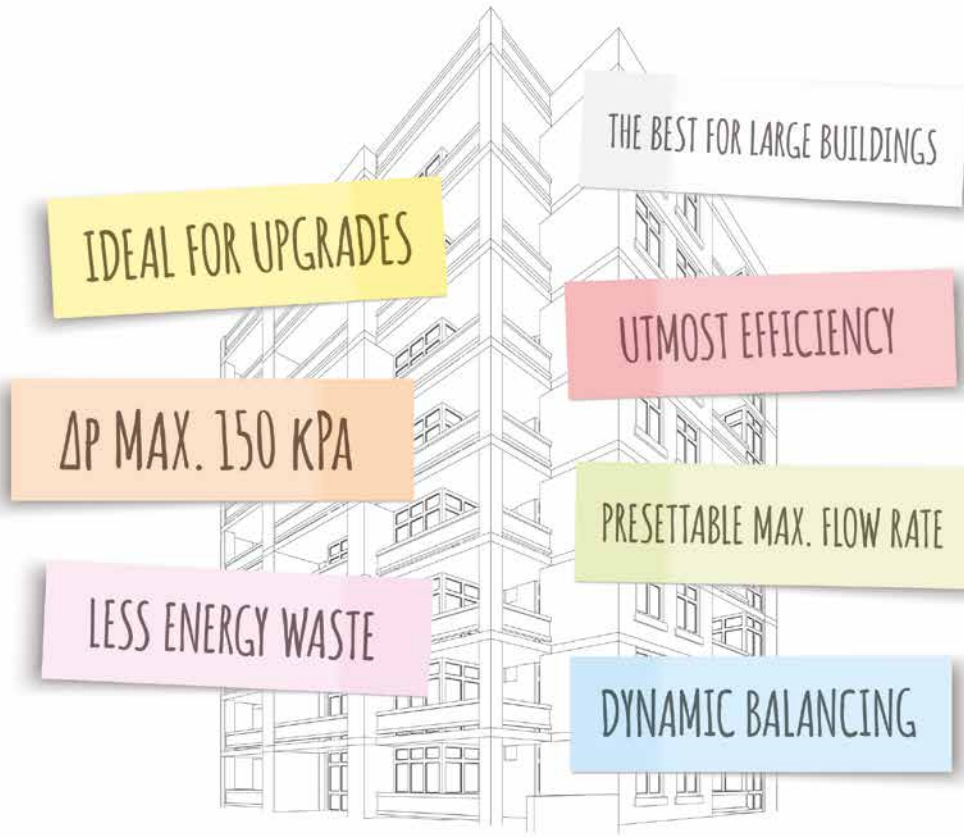

PATENT PENDING
Automatic Flow Rate Balancing.
The integrated cartridge controls and limits the flow rate to preset values while balancing every radiator of the system.

Comfort at every level.

DB thermostatic radiator valve
with dynamic balancing.

These valves offer optimum control of differential pressure up to 150 kPa and flow rates up to 200 l/h (with thermostatic heads). DB valves provide outstanding performance for every application, from renovation to new build. These thermostatic radiator valves are also ideally suited to high buildings of multiple levels.

No more complicated calculations, difficult calibrations or system imbalances: with DB valves your systems will maintain efficiency while saving time and energy.

➔ Time to BIM.

More than 800 Giacomini products now uploaded in the MagiCAD software

Giacomini makes its 3D Giacomini product drawings available to designers and professionals for BIM applications. BIM is the acronym for **Building Information Modeling**, the system that allows designers to have a smart communication with IT tool for sizing, placing, shaping and for calculation.

Over 800 Giacomini products are already uploaded on magicloud.com, a software compatible with Magicad (.qpd), AutoCAD (.dxf) and Revit (.rfa). BIM supports the designer to

set up easily all drawings with Giacomini's components. Magicloud offers to designers state-of-the-art drawings and calculation functions for heating, cooling, ventilation, air conditioning and water distribution systems, as well as sewer, sprinkler and special systems, including energy efficiency calculations.

BIM offers more efficiency and performance, less mistakes, time saving, information sharing and a better project control.

Register on magicloud.com and start planning!
